

Our system of justice has always stated innocent until proven guilty. This proposed requirement would label each and every broadcaster as guilty without due process.

Logging requirements should only be made if and when a complaint is raised and it is determined that an individual operator needs to provide material as part of an investigation of a specific case.

This proposal would be costly and time consuming and not be necessary industry wide. Most broadcasters are good broadcasters. Please devote your time and resources to resolving specific cases against individual operators.

Sincerely,

Gene Dow
Vice President and General Manager
Pecos Valley Broadcasting
KSVP-AM/KTZA-FM
Artesia, New Mexico
